

Madonna Ministry

Bishops Offerings

Being a Bishop in the Madonna Ministry makes me answerable to more than just myself. When I step up to the Mantel of Bishop, I am stepping up to an energetic responsibility. This obligation is not just to the Madonna Ministry but to the position of Bishop. The energy of being a Bishop alone calls for a level of honor and integrity. The personal accountability to that energetic calling is what requires me to ask the question, **"How am I going to serve?"** I ask you the same question. Not because our Ministry needs your hearts and voices (which is true), but because the commitment to being a Bishop asks you that. The circle of giving and receiving is only amplified by standing in the position of Bishop. So I ask myself, **'How do you show your faithfulness and sincerity to the Ministry?'**

We are coming up on the Eve of the First Bishop Convocation. This weekend is dedicated to setting the intention of **"How our Ministry is growing"**. So I ask you, **'How can you contribute? Where can you add to the collective voice of the Ministry? What can you give to aid our growth?'**

*Sincerely,
Bishop Yvonne Dauria, GA*

Sending Love and Blessings as we take the next steps in the Ministry.

MM Bishop are the "Light" houses, so if things get to serious, make it "Light".

A Note to All Bishops/Bishop Candidates

By Charlie Sommer

The paradox with being a Bishop in the Madonna Ministry is that we are called to selfless service in a group endeavor. **The paradox is** that we want to be served or exact do service from others, and yet we understand the real value in giving. Sometimes we fail to realize the full importance of our mission. We are often side tracked, distracted, filled with self-importance, self-debasement or self gratification. We often miss the mark. We would rather be independent. (Like that is really possible!) Who want to put up with someone else's narcissism? I'll tell you who! A mother who deeply loves her child! A **Universal Mother** who values all children is our role model.

The independent or cloistered way of being in service is less effective than a group endeavor. The paradox comes into play because we are called to work now in a **group endeavor**. In the Aquarian Age we have been called intuitively to work together in the Divine Mother's Ashram. It is something we intuitively feel/know. Intuitive knowing often requires follow up ... commitment to see it through. Does it not?

Intuitive flash is not like a hot flash that we would rather avoid. Intuition requires cultivation for those of us interested in expressing what God want to happen through us.

When I ordain or consecrate ministers, priests and bishops into the Madonna Ministry it is with the knowing that many of us have worked together in other life times. What is different now is that we have the grand opportunity to work together, globally. Thanks in part to the electronic world we live. Thanks largely to the Bishops and others among us that understand the importance of working together to create

To my dear friends

I send the blessing of the Divine Mother and all the blessed angels, through the scent of the rose the gentle touch of falling petals and the clarity of shards of rainbow light.....

May the sounds of the angels ring through every step we take and every word we speak, May the love that touches each one radiate and expand through this ministry of love and help each one to rise above the sea of emotions and the attachments of ego.

May our decisions be wise, may we learn to listen well, to use our attention intelligently and to respond with compassion gentleness and integrity.

Let us take time to think about what is spoken and remember the old Quaker adage that something that cannot be said in 3 minutes is not yet well enough considered for sharing!!!

Love & Blessings to you all.
Sashiva UK

My wish for MM is that we can stand as an anchor and a haven as we move into times of immense change and that we can stay flexible and responsive to the needs of the moment.

Blessings,
Bishop Charmian Redwood

beneficial changes. Yes, there are sacrifices that must be made to support any group or family endeavor. Yes, we often have to confront our on fears, sense of self importance and to move beyond our comfort levels to work with others, to aid others. Humor helps!

The Bishops and Bishop Candidates that do understand the value in working together are attending our First Bishops Convocation.

Our ordination and consecration are more than a spiritual recognition, more than an initiation, more than an act of empowerment; they are a grand opportunity, an invitation to support each other in a spiritual group endeavor in a global net-work of Light workers.

Our mentoring programs, courses of instruction, web site information, gatherings, healing ministry, newsletters, referral service, teleconferencing, administration, sacramental ceremonies, sponsorship, and scholar shipping come out of our group endeavor. It does take sacrifice, energy, time and money as we well know. We have been drawn together to co create a church that breaks though the illusion of separation, isolation, and independence.

For those that are sacrificing, paying the price and paying the dues and providing the services that grows the Madonna Ministry I thank you. I thank those who are supporting and or attending our first Bishops Convocation next week. Bobbe and I are delighted that we are able to host/hostess and to share our beautiful home. I am truly thankful for all the wonderful people who in any way have supported us and have given us the opportunity to support them. For it is in serving that we are served.

***"We salute the Holy Madonna in you."
Our commitment is known by our deeds.***
