Happy Valentine's Day

Love without Conditions

I love you as you are, as you seek to find your own special way to relate to the world. I honor your choices to learn in the way you feel is right for you.

I know it is important that you are the person you want to be and not someone that others or I think you should be. I realize that I cannot know what is best for you, although perhaps sometimes I think I do. I have not been where you have been, viewing life from the angle you have. I do not know what you have chosen to learn, how you have chosen to learn it, with whom or in what time period. I have not walked life looking through your eyes, so how can I know what you need.

I allow you to be in the world without a thought or word of judgment from me about the deeds you undertake. I see no error in the things you say and do. In this place where I am I see that there are many ways to perceive and experience the different facets of our world. I allow without reservation the choices you make in each moment. I make no judgment of this for if I would deny your right to your evolution, then I would deny that right for all others and myself.

To those who would choose a way I cannot walk, while I may not choose to add my power and my energy to this way, I will never deny you the gift of love that God has bestowed within you and me for all creation. As I love you so I shall be loved. As I sow, so shall I reap.

Need: A web skilled MM to volunteer to upload info for new MM website? A new website is under construction, and hopefully will be available soon.

Need: School benches for grades 1-6 (enough for 100 kids), desks for teachers & students, partitions, for a small Catholic Mission school on the Red River Reservations in Minnesota. This reservation is one of Bishop Mo Hainer's pet projects. Fr. Pat said the kids are sitting on 25 years old benches with nails popping through. Their needs are: teacher's desks, filing cabinets, work benches, and partitions. Please contact Mo or Mei Lan if you can help in any way. Mo: moq@dc.rr.com

Need: Money or medical supplies for a small medical clinic in Omsk, Siberia. Bishop Carol Bruce has helped to build this clinic, and they are still very short of supplies. The supplies she has brought to the clinic have already saved at least 10 infants' lives!

Things to Contemplate

As you ponder about whether or not this next step in becoming ordained as a Priest/ess or consecrated as a Bishop feels right for you we would ask the following:

- 1. What is your reason for doing so?**
- 2. What is your commitment to the Madonna Ministry?**
- 3. How do you see yourself fitting within the Tenets of the MM?**
- 4. What is your intention?**
- 5. What is it you wish the MM to be a witness to in your life?**

As in any organization one feels inspired to become a part of, there are responsibilities one must agree to. One of those as a Bishop within the MM, there is an accountability to the individuals one ordains to inform them about their commitment to the MM, and to keep their ordaining Bishop aware of any changes, i.e., address, email, etc., and any needs they may have.

Bishop Joanna Cyrgalis, GA
Board Member

My ministry has evolved and continues to be
shaped by the hand of Divine Guidance. I
clothe the "Goddess" in "Everywoman" and
listen, support, counsel, encourage and
champion the God/dess potential in all and
hold space for that potential to manifest. I
enjoy using fabric and colors to soothe the
soul and enliven the spirit. I express my
creativity and connection to the earth in
creating gemstone jewelry, prayer beads,
and rosaries. I also operate a
spiritual/holistic centre that offers a variety
of services and activities, including massage,
reflexology, aromatherapy, full and new
moon circles, Reiki healing circles,
conversation cinema and art classes and
shows. We have space for
classes/workshops and have hosted events
in Radical Forgiveness, Sufism, Breathwork,
Sound Healing and the Priestess Process. I
offer space for artists to show their work and
for creativity to bloom. The centre is a
place for healing and a place where spiritual
and creative people can gather, network,
receive support and inspiration. I also see it
as a spring board, a safe and sacred space
for those who are just beginning their work
in the world to get their feet wet.

In addition, I am a certified in reflexology

I want to thank each and everyone who has ever been associated with the ministry and for all those who are looking for the ministry now and will be joining us. My intention is to create healing living environments throughout this world. I believe it is time to take what we know; take what we have in our heart and begin to create environments which serve many to help with the healing of this planet with the same love that the Madonna pours out to each of us in our daily lives and our hearts.

Bishop Denny Simpson, UK
Board Member

Welcome to the World of Denny. I am a Bishop in the Ministry living in Norwich, Norfolk, England.

Recently we moved into a cottage by the river. I live here with my partner Phil; together we have two Sons and two Daughters aged between 18 and 25 years old.

Each day we consider ourselves to be Blessed as we can watch Swans, Kingfishers and other beautiful birds. Some days we even see a Barn Owl fly very close to us. Truly, a wonderful sight. Norwich is a beautiful old city on the Magdalene Line.

My work is the daily "**Ministry of my Heart**" which is ever changing according to Divine Will.

This year I am bringing in more fun into my life. I thought dancing would be a good way to exercise and have fun so watch this space. I hope that Phil will be joining me in this endeavor! Some of you at last years Conference will remember the gusto with which he threw himself into our dancing!!!

MY VISION FOR THE MINISTRY

It has been made clear to me that I am in complete service during this live time. I have also been led to help in the healing arts. In 1991, I woke up to a voice saying that I was living among the living dead.

I became aware that I needed more information in order to understand what exactly that really meant. I was led to a mentor to assist in my awakening. That teacher/mentor is now tutoring me in how to become a Bishop in the Madonna Ministry.

This particular ministry is of great importance to me since I have been in service to the Madonna since I was seven years old. The area of my service has been in healing in many different modalities. But, the greatest healing ability of all has been through the power of unconditional love.

It has been shown to me that I have been in training for this time in my life for most of my life. Many years were spent in suffering illnesses and 2 near death experiences which were unconscious and then one emotional/mental illness which resulted in a split personality and an on-going battle between anger and love. My third near death experience was a conscious experience that was orchestrated by Dr. Ciri and facilitated by one of his most treasured and advanced students.

Over the years I have accumulated various skills, certifications and knowledge that are usually on the cutting edge of change in this world. I often have not known why I was getting the information or what to do with it all.

But, now, in this moment I am fully aware of how all the pieces are coming together. I am working with people, programs, media and certain energies to unite with a global healing movement that will make a difference for those who are praying for exactly what we are creating together to evolve and heal this planet and the inhabitants.

My intention is to work my dreams and guidance through my Bishop ordination. Structure is important and so I see attracts beings of like frequencies to it.

WHAT: World Sound Healing Day—

The Sound Heard Around the World

For five minutes, sound healers, meditators, peace activists and lovers of all humanity and sentient consciousness will send a Sonic Valentine to the Earth with the heart sound "AH" filled with the intention of Peace and Love! (visit: www.healingsounds.com to for more information on this event and to download an "AH" sound you can tone along with)

WHEN: February 14, 2007, join Jonathan Goldman, the Sound Healers Association and thousands of people throughout the planet as they tone an "AH" together for five minutes during that day, projecting the energy of Light & Love throughout the Planet. We have found that creating a Global Sacred Sound any time within a 24 hour period on the planet will create a coherent waveform that will affect the entire Earth. Therefore, any time you feel guided to sound for Planetary Peace on February 14th is a good time! You will actually experience generating a field of transformational energy as this occurs. In addition, local toning groups will be occurring throughout the Earth at various times during that day with the intention of assisting planetary consciousness through sound. There will also be several global

I allow you the universal right of free will to walk your own path, creating steps or to sit awhile if that is what is right for you. I will make no judgment that these steps are large or small, nor light or heavy or that they lead up or down for this is just my viewpoint. I may see you do nothing and judge it to be unworthy and yet it may be that you bring great healing, as you stand blessed by the light of God. I cannot always see the higher picture of divine order.

For it is the inalienable right of all life to choose their own evolution and with great love I acknowledge your right to determine your future. In humility I bow to the realization that the way I see as best for me does not have to mean it is also right for you. I know that you are led as I am, following the inner excitement to know your own path.

I know that the many races, religions, customs, nationalities and beliefs within our world bring us great richness and allow us the benefit and teachings of such diverseness. I know we each learn in our own unique way in order to bring that love and wisdom back to the whole. I know that if there were only one way to do something, there would only be one person.

I will not only love you if you behave in a way I think you should or believe in those things I believe in. I understand you are truly my brother or my sister, though you may have been born in a different place and believe in another God than I. The love I feel is for God's entire world. I know that every living thing is a part of God and I feel a love deep within for every person, animal, tree and flower, every bird, river and ocean and for all the creatures in the entire world.

I live my life in loving service; being the best me I can, becoming wiser in the perfection of Divine Truth, becoming happier in the joy of UNCONDITIONAL LOVE.

Namaste & Love to you dear MM family,
Shirley
